

Sandoval County Amateur Radio Emergency Service

Regular Meeting

July 15, 2019

Meeting called to order by Ben-KD5DCN at 7:00 pm.

Ron-NM5AA gave a Treasurers Report.

Bob-N5UKA is working on our Inventory.

Sandoval County Emergency Coordinator Seth Muller Emailed Ben about an Emergency Managers Meeting on September 23-24 at Santa Ana Star Casino.

Brian-KG5WED showed a tool box that he put together for the trailer.

Chric-KC5IZR reported that last Monday we lost Connectivity at La Madera. No progress on the Angel Rd move.

Tom-W5THS gave an update on the trailer progress. 12V DC and 120v AC systems are done for the moment. Had a list of items to be completed. Marty-NM5MS and Brain-KG5WED volunteered for several. Asked that we look at the trailer after the meeting.

ARRL Section Manager Bill-K8TE gave an update for the Duke City Ham fest. Meals and RV spots have met the contract requirements. Hoping for a Big Name ham dealer coming.

David-K6SIK asked with recent Earthquake in California, do we have a telephone emergency number list and a HF frequency list. Was told to check our IC-217 for frequencies. He was asked to look at our Red Book, to see if he would like to help in updating it.

Bill-K8TE responded by saying that besides our IC-217, you can search for nets but don't always get good results. He will forward an article from ARRL.

Meeting was adjourned.

Tom-W5THS
Secretary
